Product specification sheet

Product	Philips High Speed Blender 1500W
SKU	cm-HR3760/00
Brand	Philips
Category	Kitchen & Dining
Minimum order quantity	1
Unit	—
Unit price	$265.00
Available quantity	100

Description

Philips 7000 Series High Speed Blender HR3760/00 The Philips 7000 Series High Speed Blender HR3760/00 is designed for users who want powerful blending performance, smoother textures, and automatic programs for everyday recipes. Its strongest selling point is not only the 1500W motor. The real value is Philips ProBlend Ultra Technology, which combines a powerful motor, advanced blade design, and a ribbed glass jar to deliver smoother blends across smoothies, soups, sauces, desserts, nut butter, ice crushing, and more. Key Features 1500W high-speed blender ProBlend Ultra Technology 2L glass jar 1.8L effective capacity ProBlend Ultra ribbed jar design ProBlend Ultra motor for strong ingredient circulation ProBlend Ultra blades with serrated and sharp blade combination Quick Select Programs Digital display Programs for smoothie, nut butter, dessert, soup, sauce, ice crushing, and cleaning Quick Cleaning Function in around 2 minutes Dishwasher-safe detachable parts HomeID app recipe support Blending Performance ProBlend Ultra Technology ProBlend Ultra Technology combines three key parts: the jar, motor, and blades. Together, they improve ingredient circulation and help create smoother, more consistent results. 1500W ProBlend Ultra Motor The powerful 1500W motor drives strong blending flow, helping circulate ingredients evenly for smoother textures. Blade & Jar Design ProBlend Ultra Blades The blade system combines serrated blades for crushing hard ingredients and sharp blades for slicing ingredients into a finer texture. ProBlend Ultra Glass Jar The ribbed jar design continuously guides ingredients back into the blending flow, helping reduce uneven blending and improve consistency. Quick Select Programs Digital Preset Programs The Quick Select Programs are designed with preset time and speed settings for easier everyday use. Programs include: Smoothie Nut butter Dessert Soup Sauce Ice crushing Cleaning Real Buyer Benefit Users do not need to guess the correct speed or timing for common recipes. The machine gives easier control and more consistent results. Capacity 2L Glass Jar The large 2L jar is suitable for family use and larger batches. 1.8L Effective Capacity The 1.8L working capacity makes it practical for smoothies, soups, sauces, and shared drinks. Cleaning Quick Cleaning Function Add a small amount of water and dish soap, then activate the cleaning function for easy cleaning in around 2 minutes. Dishwasher-Safe Parts All detachable parts are dishwasher safe, making cleanup easier after daily use. Blade Design for Easier Cleaning The ProBlend Ultra blade is designed to help prevent food particles from getting trapped underneath. App Support HomeID App The HomeID app provides recipe inspiration for drinks, snacks, desserts, meals, soups, sauces, and other blender-friendly ideas.
