Description

Philips Drip Coffee Maker 1000 Series HD7430/90 The Philips Drip Coffee Maker 1000 Series HD7430/90 is designed for users who want simple, reliable filter coffee at home with enough capacity for daily family use. Its strongest selling point is not only the 1.2L jug. The real value is everyday convenience: up to 10 cups of coffee, Keep Warm mode, Drip Stop pouring, water level indicator, and auto shut-off for safer daily brewing. Key Features 1.2L glass jug Brews up to 10 cups of coffee Keep Warm mode for 30 minutes Auto shut-off after Keep Warm cycle Drip Stop function Water level indicator Durable and efficient brewing design Simple daily operation Part of Philips Essentials breakfast collection Coffee Capacity 1.2L Glass Jug The 1.2L jug allows users to brew up to 10 cups of coffee, making it practical for families, offices, guests, or users who drink multiple cups during the morning. Keep Warm Function 30-Minute Keep Warm Mode After brewing, the coffee maker automatically switches to Keep Warm mode for 30 minutes. This helps keep coffee hot without needing to reheat it immediately. Drip Stop Feature Pour Before Brewing Finishes The Drip Stop function allows users to remove the jug and pour coffee before the full brewing cycle is complete. Real Buyer Benefit This is useful for busy mornings when users do not want to wait for the entire pot to finish. Easy Filling Water Level Indicator The water level indicator helps users add the correct amount of water without guessing. This improves consistency and reduces overfilling. Safety & Convenience Auto Shut-Off After the 30-minute Keep Warm cycle, the coffee maker shuts off automatically for safer and more worry-free daily use.
