Product specification sheet

Product	Philips 5000 Series Blender
SKU	cm-HR3033/00
Brand	Philips
Category	Kitchen & Dining
Minimum order quantity	1
Unit	—
Unit price	$180.00
Available quantity	100

Description

Philips 5000 Series Blender HR3033/00 The Philips HR3033/00 is designed for users who want smoother blending, stronger ice and frozen-fruit performance, and easier cleaning after daily use. Its strongest selling point is not only the 1200W motor. The real value is the ProBlend Plus system, which combines a powerful motor, upgraded blades, and a ribbed glass jar to create smoother circulation for thick smoothies, frozen fruit, soups, sauces, and crushed ingredients. Key Features 1200W ProBlend Plus motor ProBlend Plus technology 50% more powerful blending performance Designed for hard ingredients like frozen fruit, ice, and nuts Thick frozen-fruit smoothies with little or no added water New longer and thicker ProBlend Plus blades Ribbed glass jar for better ingredient circulation 2L maximum jar capacity 1.5L working capacity 3 speed settings + Pulse Chopper attachment included Mill attachment included Detachable blades for easier cleaning Manual clean setting HomeID app recipe support Blending Performance 1200W ProBlend Plus Motor The 1200W motor provides strong blending power for frozen fruit, ice, nuts, soups, sauces, and thick smoothie mixtures. ProBlend Plus Technology The ProBlend Plus system combines motor power, blade design, and jar structure to improve ingredient circulation and deliver smoother blending results. Blade & Jar Design ProBlend Plus Blades The upgraded blades are longer and thicker, helping crush and blend harder ingredients more effectively. Ribbed Glass Jar The ribbed glass jar guides ingredients into the blending vortex, improving circulation and helping reduce uneven blending. Smoothies & Frozen Fruit Thick Smoothies Without Extra Water This blender is suitable for thick frozen-fruit smoothies and smoothie bowls with little or no added liquid. Tamper Support The tamper helps push ingredients down and keep them moving toward the blades for better consistency. Capacity 2L Jar Capacity The large 2L jar is practical for family use. 1.5L Working Capacity The 1.5L working capacity allows users to prepare a larger batch of smoothies, soups, sauces, or drinks in one go. Speed Control 3 Speeds + Pulse Three speed settings give better control for soft and hard ingredients, while Pulse adds short bursts of power when extra blending force is needed. Attachments Chopper Attachment The chopper is useful for onions, herbs, nuts, vegetables, sauces, and dips. Mill Attachment The mill attachment is designed for grinding coffee, seeds, and spices. Cleaning Detachable Blades The blade unit can be removed from the jar for easier cleaning by hand or in the dishwasher. Manual Clean Setting The manual clean setting helps clean the blender without heavy scrubbing.
