Description

Samsung Type-C Earphones Tuned by AKG The Samsung Type-C Earphones tuned by AKG are designed for users who want clear wired audio through a USB-C connection without needing a 3.5mm headphone jack. Its strongest selling point is not only the AKG tuning. The real value is the built-in DAC, 2-way speaker design, and USB-C digital audio connection, giving users a cleaner and more balanced listening experience than basic wired earphones. Key Features USB Type-C wired earphones Tuned by AKG Built-in DAC for improved audio quality 2-way speaker system 11mm + 8mm speaker drivers Clear left and right signal separation Balanced sound with rich detail Lightweight comfortable earbud design Multiple eartip options included Fabric cable helps reduce tangling Suitable for USB-C phones, tablets, and compatible devices Specifications Type-C Earphones Sound Speaker2Way(11mm/8mm) Impedance32Ω Frequency Response20~20kHz Sensitivity94.3dB±3dB(-10dBFS input)
