Product	Philips PowerPro Expert Bagless Vacuum Cleaner
SKU	cm-FC9732
Brand	Philips
Category	Home Appliances
Minimum order quantity	1
Unit	—
Unit price	\$355.00
Available quantity	100

Description

Philips PowerPro Expert Bagless Vacuum Cleaner FC9732 The Philips PowerPro Expert FC9732 is designed for users who want powerful home cleaning with strong suction, fine dust capture, and bagless convenience Its strongest selling point is not only the 2000W motor. The real value is the combination of PowerCyclone 8 technology, Allergy Lock sealing, Allergy H13 filtration, digital suction control, and the TriActive+ nozzle. This makes it a strong option for homes with dust, carpets, pets, and allergy-sensitive users Key Features 2000W motor Max 420W suction power PowerCyclone 8 technology Picks up and locks 99.9% of fine dust Allergy Lock system Allergy H13 filtration system Bagless dust container Hygienic one-hand dust emptying Digital power control TriActive+ nozzle On-board accessories Integrated soft brush in handle Suitable for carpets, hard floors, furniture, and upholstery Cleaning Performance PowerCyclone 8 Technology PowerCyclone 8 creates a powerful swirling airflow that separates dust from air at high speed, helping maintain strong suction performance for longer. 2000W Motor The 2000W motor generates up to 420W suction power, making it suitable for deep cleaning across different home surfaces. TriActive+ Nozzle The TriActive+ nozzle performs three cleaning actions in one pass. It collects larger debris from the front, removes dust from carpets, and uses side air channels and brushes to clean along walls and furniture edges. Filtration & Allergy Protection Allergy H13 Filter System The Allergy H13 filtration system captures 99.9% of fine dust particles, including pollen, pet hair, and dust mites. Allergy Lock System The Allergy Lock system helps ensure the dust container is properly sealed before operation, keeping dust and allergens trapped inside the vacuum. Bagless Convenience One-Hand Dust Emptying The dust container is designed for hygienic one-hand emptying to help reduce dust clouds during disposal. No Dust Bags Needed The bagless system removes the need for replacement dust bags, making regular cleaning more convenient. Digital Power Control Adjustable Suction Digital power control lets users adjust suction depending on the surface or cleaning task, from hard floors to carpets, furniture, and soft furnishings. Accessories On-Board Accessories Accessories are stored inside the back compartment, keeping them close and ready when needed. Integrated Soft Brush The soft dusting brush is built into the handle, making it easy to clean furniture, shelves, flat surfaces, and upholstery without searching for a separate tool.
