

Product specification sheet

Product	Dyson Spot+Scrub AI Robot Vacuum
SKU	cm-RB05-A Spot+Scrub Ai 586183-01
Brand	Dyson
Category	Home Appliances
Minimum order quantity	1
Unit	—
Unit price	\$1,499.00
Available quantity	100

Description

Dyson Spot+Scrub AI Robot Vacuum Cleaner The Dyson Spot+Scrub AI Robot Vacuum Cleaner is designed for users who want powerful vacuuming, smarter stain cleaning, and hygienic wet floor maintenance in one advanced robot system. With 18,000Pa suction, AI stain detection, LiDAR navigation, and a self-cleaning wet roller, it is built for homes that need more than basic automated cleaning. Its main value is intelligent cleaning adaptation. The robot can detect stains, recognize objects and surfaces, adjust cleaning power, protect carpets during mopping, and return to its dock for easier maintenance.

Key Features

- 18,000Pa suction power
- Advanced AI stain detection
- High-contrast green light reveals hidden stains and dust
- HD camera with AI object and surface recognition
- Identifies over 100 household objects and substances
- Self-cleaning wet roller
- 12-point hydration system
- Heated water cleaning
- Automatic 1.6-inch edge extension
- dToF LiDAR navigation
- AI obstacle avoidance
- Carpet boost mode
- Wet roller lifts 0.4 inches on carpets
- Bagless Dyson cyclonic dock
- Up to 100 days dry debris storage
- Double hygiene filtration down to 0.1 microns
- Up to 200 minutes runtime
- App control with schedules, zones, and cleaning reports

Main Feature Sections

Powerful Dyson Suction The Dyson Spot+Scrub AI delivers 18,000Pa suction to remove dust, debris, hair, and fine particles from hard floors and carpets.

AI Stain Detection The robot uses a green light system and HD camera with AI recognition to detect hidden stains, dust, objects, and different floor conditions.

Self-Cleaning Wet Roller The wet roller cleans itself during use, helping reduce the problem of dragging dirty mop pads across the floor.

Heated Water Cleaning The heated water system supports better stain removal and helps maintain a cleaner mopping process on hard floors.

Smart Carpet Protection When carpet is detected, the wet roller lifts 0.4 inches to help prevent carpets from getting wet. Carpet boost mode can increase suction for deeper dry cleaning.

Edge Cleaning Extension The wet cleaning system extends up to 1.6 inches to clean closer to walls and edges where dirt often collects.

Bagless Cyclonic Dock The dock uses Dyson cyclonic technology to empty dry debris without dust bags and can store debris for up to 100 days depending on usage.

LiDAR and AI Navigation dToF LiDAR helps the robot map rooms accurately, while AI obstacle detection helps it avoid household objects during cleaning.

Smart App Control The app allows users to set schedules, cleaning modes, room targeting, no-go zones, and view reports with heat maps and coverage data.

Technical Specifications

Product Name: Dyson Spot+Scrub AI Robot Vacuum Cleaner

Product Type: Robot vacuum and mop cleaner

Suction Power: 18,000Pa

Maximum Runtime: Up to 200 minutes

Charge Time: 3 hours

Navigation: dToF LiDAR with AI object detection

Wet Cleaning System: Self-cleaning wet roller with heated water

Hydration System: 12-point hydration

Edge Cleaning: Automatic 1.6-inch extension

Carpet Protection: Wet roller lifts 0.4 inches

Dock Type: Bagless cyclonic dock

Dock Debris Storage: Up to 100 days

Filtration: Double hygiene filtration down to 0.1 microns

Bin Volume: 0.81 gallon

Robot Weight: 14.5 lb

Dock Weight: 9kg

Robot Dimensions: 14.6 × 14.7 × 4.3 inches

Dock Dimensions: 20 × 17.3 × 17.9 inches

App Features: Cleaning reports, schedules, no-go zones, cleaning modes, and room control

Battery Life

Maximum Runtime: Up to 200 minutes

Charge Time: Around 3 hours

Auto Recharge: Supported

Actual runtime may vary depending on suction level, cleaning mode, floor type, stains, wet cleaning use, and room layout.
