Description

Mcdodo CA-7180 2M HDMI Connection Cable The Mcdodo CA-7180 is designed for users who need a reliable HDMI cable for 4K entertainment, gaming, projectors, monitors, and professional display setups. Its strongest selling point is not only 4K support. The real value is stable 4K@60Hz transmission with HDMI 2.0 performance, gold-plated connectors, and a durable braided 2-meter cable that is practical for daily home and office use. Key Features 2-meter HDMI connection cable Supports 4K@60Hz Ultra-HD resolution HDMI 2.0 standard Gold-plated connectors Durable braided cable design High-fidelity audio support Stable signal transmission Universal compatibility Suitable for TVs, monitors, projectors, gaming consoles, and media devices Video Performance 4K@60Hz Ultra-HD Resolution The cable supports 4K resolution at 60Hz, giving smoother and clearer visuals for movies, gaming, presentations, and streaming devices. HDMI 2.0 Standard HDMI 2.0 support provides the bandwidth needed for 4K@60Hz content and stable high-definition display performance. Audio Performance High-Fidelity Audio Support The cable supports audio transmission for immersive sound when connected to compatible TVs, sound systems, projectors, gaming consoles, and media players. Build Quality Gold-Plated Connectors The gold-plated connectors help improve long-term connection stability and reduce signal interference. Durable Braided Cable The braided exterior helps reduce tangling, bending damage, and daily wear, making it more durable than basic rubber HDMI cables. Compatibility Universal HDMI Compatibility Compatible with: TVs Monitors Projectors Gaming consoles Laptops Desktop PCs Streaming devices Media players Technical Specifications Brand Mcdodo Model CA-7180 Product Type HDMI connection cable Cable Length 2 meters HDMI Standard HDMI 2.0 Resolution Support 4K@60Hz Connector Type HDMI to HDMI Connector Finish Gold-plated connectors Cable Design Braided cable Audio Support High-fidelity audio transmission
