Description

Action Camera Mounting Clamp Bracket The Action Camera Mounting Clamp Bracket is designed for users who need a flexible mounting solution for GoPro, Insta360, and other action cameras across different surfaces and shapes. Its strongest selling point is not only the adjustable ball head. The real value is the upgraded strap design, which allows the mount to secure onto round, square, flat, and irregular objects. That makes it more versatile than a basic fixed clamp. Key Features Universal action camera clamp bracket Compatible with Insta360 and GoPro cameras Adjustable ball head design Tilts up and down, forward and backward Up to 45° angle adjustment Upgraded strap locking system Secures round, square, flat, and irregular objects Compact and portable design Suitable for outdoor and action filming setups Mounting Performance Upgraded Strap Design The strap design allows the clamp to hold different shapes more securely, including round bars, square tubes, flat surfaces, and irregular objects. Real Buyer Benefit This gives users more mounting freedom compared to standard clamps that only work properly on handlebars or perfectly round tubes. Adjustable Angle Universal Ball Head The ball head allows angle adjustment up to 45° up and down, forward and backward. Practical Advantage Users can fine-tune the shooting angle without removing and reinstalling the mount. Compatibility Compatible Cameras Suitable for: Insta360 action cameras GoPro action cameras Other compatible action cameras with the correct adapter Use Cases Ideal For cycling motorcycle riding hiking travel filming outdoor sports POV recording action camera mounting on different objects Technical Specifications Product Type Action camera mounting clamp bracket Adjustment Range 45° up and down / forward and backward Mounting Style Clamp bracket with upgraded strap locking design Supported Object Shapes Round, square, flat, and irregular shapes Compatibility GoPro, Insta360, and compatible action cameras Design Compact and portable
