Description

Mcdodo Beryllium 12W Wall Charger Set CH-5071 The Mcdodo Beryllium CH-5071 is a compact travel wall charger set designed for basic everyday charging with two USB-A ports and an included USB to iP cable. Its strongest selling point is not charging speed. The real value is simple dual-port convenience for users who need a lightweight charger set for iPhone, accessories, earbuds, and daily backup charging. Key Features 12W wall charger set 2 × USB-A charging ports USB to iP cable included EU plug design Compact travel-friendly body Fireproof PC material V0 fire-resistant rating Wide 110–240V input support Lightweight 55g design Suitable for basic daily charging Charging Performance 12W USB-A Output The charger supports up to 12W max output through USB-A. Dual USB-A Ports The two USB-A ports allow charging two devices at the same time. Important Power Sharing Note The total output remains 12W max when both USB-A ports are used together. That means the charging power is shared between connected devices. Included Cable USB to iP Cable The set includes a USB to iP cable, making it practical for charging compatible iPhone, iPad, and Apple accessories. Real Buyer Benefit This makes the product ready to use out of the box without needing to buy a separate cable. Design & Build Fireproof PC Material The charger body is made from fireproof PC material with V0 rating for safer everyday use. Compact Size The small size and 55g weight make it easy to carry in a travel bag, office drawer, bedside setup, or backup charging kit. Travel Use Wide Voltage Support The 110–240V input makes it suitable for travel use in different regions, depending on socket compatibility. EU Plug Comes with EU plug design.
