Available quantity	100

Description

Mcdodo Beryllium 12W Wall Charger Kit CH-5072 The Mcdodo Beryllium CH-5072 is a compact travel wall charger designed for basic everyday charging with two USB-A ports and an included Type-C cable. Its strongest selling point is not charging speed. The real value is simple dual-device convenience in a lightweight charger that works for phones, earbuds, small accessories, and backup travel use. Key Features 12W wall charger kit 2 × USB-A charging ports Type-C cable included EU plug design Compact travel-friendly size Fireproof PC material V0 fire-resistant rating Wide 110–240V input support Lightweight 55g body Suitable for basic daily charging Charging Performance 12W USB-A Output The charger delivers up to 12W max output through USB-A. Dual USB-A Ports The charger includes two USB-A ports, allowing users to charge two devices at the same time. Important Power Sharing Note Total output remains 12W max when both USB-A ports are used together. This means charging speed is shared between connected devices. Included Cable Type-C Cable Included The kit includes a Type-C cable, making it ready for USB-C phones, earbuds, speakers, power banks, and accessories that support Type-C charging. Design & Build Fireproof PC Material The charger body is made from fireproof PC material with V0 rating for safer daily charging use. Compact Size With its small body and light weight, it is practical for travel bags, office desks, bedside setups, and backup charging. Travel Use Wide Voltage Support The 110–240V input makes it suitable for travel use in different regions, depending on plug compatibility. EU Plug Comes with EU plug design.
