Product specification sheet

Product	Kenwood 43 Bottle Wine Cooler
SKU	cm-BCW43.000BK
Brand	Kenwood
Category	Consumer Electronics
Minimum order quantity	1
Unit	—
Unit price	$739.00
Available quantity	100

Description

Kenwood Wine Cooler 43 Bottles BCW43.000BK The Kenwood BCW43.000BK is designed for users who want controlled wine and beverage storage with separate temperature zones for different bottle types. Its strongest selling point is not only the 43-bottle capacity. The real advantage is the dual-zone cooling system, which allows different beverages to be stored at different temperatures while protecting flavor, balance, and freshness. Key Features 43-bottle storage capacity Compressor + fan cooling system Dual temperature zones Upper zone: 13°C–18°C Lower zone: 5°C–12°C Blue LED cold light Double glass door Helps reduce condensation on glass Designed to preserve beverage flavor Suitable for wine and multiple beverage types Cooling Performance Compressor + Fan Cooling The compressor and fan cooling system helps maintain stable internal temperature, which is important for preserving wine and beverage quality over time. Dual Temperature Zone The cooler includes two separate temperature zones: Upper zone: 13°C–18°C Lower zone: 5°C–12°C This allows users to store different beverage types at more suitable temperatures. Capacity 43 Bottles Total The cooler holds up to 43 bottles. Zone Capacity Upper zone: 21 bottles Lower zone: 22 bottles This makes it practical for mixed storage, especially for users who keep red wine, white wine, sparkling drinks, or other chilled beverages. Lighting Blue LED Cold Light The blue LED lighting is designed to illuminate the interior without releasing heat onto the bottles. Real Benefit Lower heat exposure helps protect the original flavor and prevents unnecessary temperature disturbance inside the cooler. Door Design Double Glass Door The double glass door supports better cooling performance and helps reduce energy waste. Condensation Control The glass design helps reduce condensation mist on the door, keeping visibility cleaner and improving the premium appearance.
