Product	Braun Series 9 9610S Shaver
SKU	cm-9610S
Brand	Braun
Category	Hair Care
Minimum order quantity	1
Unit	—
Unit price	\$379.00
Available quantity	100

Description

Braun Series 9 Black Shaver Wet & Dry 9610S The Braun Series 9 9610S is a premium electric foil shaver built for users who want close shaving, strong beard-density adaptation, and better comfort in fewer strokes. Its strongest selling point is not only the Series 9 branding. The real advantage is the combination of 5+1 synchronized shaving elements, Ultra Thin Precision Blades, Pro SensoAdapt technology, and a 40° adapting head. This makes it a strong option for men with dense, tricky, or uneven beard growth. Key Features Premium Braun Series 9 PRO+ electric shaver 5+1 synchronized shaving elements Ultra Thin Precision Blades Pro SensoAdapt beard-density technology Analyzes beard density 300 times per second Automatically adapts shaving power Wet & dry use Up to 60 minutes battery life 40° head adaptation Charging stand included Designed for tough beard growth Shaving Performance 5+1 Synchronized Shaving Elements The shaving elements work together to cut more hair in each stroke, helping reduce repeated passes over the same area. Ultra Thin Precision Blades The Ultra Thin Precision Blades are designed for improved cutting efficiency and skin protection compared to previous Series 9 shavers. Best For Dense beard growth, daily shaving, 2-3 day stubble, tricky facial areas, and users upgrading from entry-level shavers. Pro SensoAdapt Technology Beard Density Detection High-precision sensors analyze beard density up to 300 times per second. Automatic Power Adaptation The shaver adjusts power based on beard thickness, helping maintain performance across different areas of the face. Real Buyer Benefit This matters because beard density is not equal everywhere. Chin, jawline, neck, and moustache areas often need different cutting power. Head Adaptation 40° Head Flexibility The adapting head helps maintain better contact with facial contours. Why It Matters Better skin contact usually means fewer missed hairs and less need to repeat strokes. Wet & Dry Use Flexible Shaving Routine Can be used dry or with water, foam, or gel depending on user preference. Cleaning Advantage Wet & dry construction also makes rinsing easier after use. Battery Life Runtime Up to 60 minutes cordless use. Charging Charging stand included.
