## Description

Shokz OpenFit 2 Open-Ear Earbuds The Shokz OpenFit 2 Open-Ear Earbuds are designed for users who want comfortable listening without blocking the ear canal. With an open-ear fit, DualBoost™ Technology, Shokz OpenBass™ 2.0, DirectPitch™ 2.0, AI-powered clear calls, IP55 water and dust resistance, MultiPoint pairing, physical multifunction buttons, and up to 48 hours of total listening time, they are ideal for commuting, office use, workouts, calls, and everyday listening while staying aware of your surroundings. Key Features Open-Ear ComfortKeeps the ear canal uncovered for a pressure-free listening experience during long daily use. DualBoost™ TechnologyHelps deliver a more dynamic sound experience compared to basic open-ear earbuds. Shokz OpenBass™ 2.0Improves low-frequency performance, giving stronger bass while maintaining an open-ear design. DirectPitch™ 2.0Directs sound toward the ear and helps reduce sound leakage for a more controlled listening experience. Up to 48 Hours Total Listening TimeProvides long battery life with the charging case for daily use, travel, and work. Up to 11 Hours Per ChargeGives extended listening time from the earbuds alone. Quick Charge SupportA 10-minute charge provides up to 2 hours of playback. AI-Powered Clear CallsUses two microphones in each earbud to help capture voice clearly during calls. MultiPoint PairingConnects to two devices at the same time for easier switching between phone, laptop, or tablet. Physical Multifunction ButtonsAllows easier control of playback, calls, volume, and tracks without relying only on touch gestures. IP55 Water & Dust ResistanceSuitable for workouts, commuting, sweat, dust, and light rain. Shokz App SupportLets users adjust and manage their listening experience through the Shokz App. Ultra-Soft Silicone™ 2.0Helps improve comfort and fit stability without the sealed feeling of in-ear earbuds. Lightweight EarbudsEach earbud weighs only 9.4g for easier all-day wear.
