Description

Fully Invisible Waterproof Housing Case for Insta360 X4 The biggest problem with underwater 360 footage is stitching distortion.A normal waterproof case usually ruins the “invisible” effect underwater. That’s why invisible dive cases exist. This housing is designed specifically for the Insta360 X4 to maintain cleaner underwater stitching while protecting the camera during diving, snorkeling, surfing, and water sports. Key Features Designed for Insta360 X4 Invisible underwater stitching design Waterproof dive housing protection Ideal for diving, snorkeling & surfing Transparent dome-style lens structure Durable sealed construction Helps reduce underwater distortion Protective housing for deep-water shooting Specs Compatibility Compatible With: Insta360 X4 Design Fully invisible dive case Transparent dome lens design Waterproof sealed housing Usage Underwater filming Diving Snorkeling Water sports Outdoor action recording
