Description

Coteci TSA Combination Lock – Steel Wire Travel Lock Secure your luggage with confidence. The Coteci TSA Combination Lock features a strong zinc alloy body and flexible steel cable, making it ideal for suitcases, backpacks, and travel gear. Designed with a TSA-approved locking system, it allows airport security to inspect your luggage without damaging the lock. The cable design offers more flexibility than standard locks, fitting easily through zippers and tight spaces. Compact, durable, and easy to use—perfect for safe and worry-free travel. Key Features TSA-approved combination lock for travel security Durable zinc alloy body for long-lasting use Flexible steel cable for easy attachment Compact and lightweight (57g) Ideal for luggage, backpacks, and bags Secure and easy-to-set password system Model: TR-005
