Description

Nutricook Air Fryer 3 Vision – Air Fryer with Viewing Window Cook with precision and confidence using the Nutricook Air Fryer 3 Vision, designed with a built-in viewing window so you can monitor your food without opening the basket. Enjoy crispy, evenly cooked meals with powerful 1700W performance, while maintaining full control over your cooking process. What Makes It Different Built-in Viewing Window – Check your food without interrupting cooking 5 Cooking Functions – Air Fry, Bake, Roast, Reheat, Dehydrate 6 Smart Presets – Fries, Chicken, Burger, Steak, Fish, Samosa Precise Temperature Control – From 35°C to 200°C Fast Cooking – Up to 60 minutes (24h for dehydration) Cook Smarter, Not Harder No more guessing or opening the basket mid-cooking. The transparent window lets you see progress in real time — helping you avoid overcooking and get perfect results every time. Built for Everyday Use Durable materials, non-stick components, and an easy-to-use system make it ideal for daily cooking, from quick snacks to full meals.
