Description

Hoco K31 Campo Magnetic Neck-Hanging Holder The Hoco K31 Campo Magnetic Neck-Hanging Holder is designed for users who want hands-free first-person POV recording with magnetic phones, non-magnetic phones using the included metal plate, and action cameras using the 1/4" screw mount. With 1.8kg magnetic pull force, adjustable rotatable positioning, chest strap support, quick-release design, and durable aluminum alloy, ABS, silicone, and spring steel construction, it is a practical holder for live streaming, photography, cycling, fishing, tutorials, and content creation. Key Features Neck-Hanging POV HolderAllows hands-free first-person recording from chest or neck position. Magnetic Phone SupportCompatible with magnetic ring phones and magnetic cases. Metal Plate IncludedSupports non-magnetic devices when using the included metal plate. 1.8kg Magnetic Pull ForceProvides strong magnetic holding support for compatible setups. 1/4" Screw MountSupports compatible action cameras and accessories with 1/4" mounting. Adjustable and Rotatable DesignLets users adjust the recording angle for live streaming, POV videos, and photography. Chest Strap for StabilityHelps keep the holder more stable during movement. One-Button Quick ReleaseMakes installation and removal faster and easier. Durable Material BuildMade from aluminum alloy, ABS, silicone, and spring steel. Main Feature Sections Hands-Free First-Person RecordingThe Hoco K31 is made for creators who want to record from a natural POV angle without holding the phone or camera. It is useful for tutorials, product demos, cycling, fishing, cooking, repair videos, and live streaming. Magnetic Phone and Action Camera SupportThe holder works with magnetic ring phones and cases, and includes a metal plate for non-magnetic devices. The 1/4" screw mount also makes it suitable for compatible action cameras. Stable and Adjustable SetupThe adjustable, rotatable positioning helps users control the shot angle, while the chest strap adds stability during movement. Fast Quick-Release UseThe one-button quick release makes it easier to attach or remove the device during filming or travel.
