Description

Ufesa Everest Digital Grill With Non-Stick Plates The Ufesa Everest Digital Grill is designed for users who want a powerful and easy-to-control countertop grill for meat, chicken, fish, sandwiches, hamburgers, and everyday home cooking. With 2000W power, an intuitive touch screen, 5 preset cooking programs, 3 cooking levels, adjustable temperature up to 230°C, digital time control up to 30 minutes, 105° and 180° grill openings, and removable non-stick plates, it is a versatile grill for quick meals, family cooking, and cleaner indoor grilling. Key Features 2000W Powerful GrillDelivers strong heating performance for grilling meat, chicken, fish, sandwiches, and hamburgers. Intuitive Touch ScreenDigital touch control makes the grill easier to operate and adjust. 5 Preset ProgramsIncludes preset options for meat, chicken, fish, sandwiches, and hamburgers. 3 Cooking LevelsLets users choose rare, medium, or well-done cooking levels depending on preference. Adjustable Temperature up to 230°CGives better control over cooking intensity for different ingredients. Digital Time ControlAllows cooking time adjustment up to 30 minutes. 105° and 180° Grill OpeningsSupports standard grilling and fully open flat grilling for more cooking flexibility. Cook on Both PlatesThe 180° opening allows users to cook different foods on both grill plates at the same time. Removable Non-Stick PlatesMakes cleaning easier after cooking. Versatile Countertop CookingSuitable for daily meals, quick snacks, sandwiches, burgers, and grilled food preparation. Main Feature Sections Powerful 2000W Cooking PerformanceThe Ufesa Everest Grill uses 2000W power to provide strong heat for everyday grilling. It is suitable for users who want faster cooking and better control compared to basic sandwich presses or low-power grills. Smart Touch Screen with Preset ProgramsThe intuitive touch screen gives users simple access to 5 preset programs for meat, chicken, fish, sandwiches, and hamburgers. This makes cooking easier for users who want guided settings instead of manually guessing every time. Customized Cooking LevelsWith 3 cooking levels—rare, medium, and well done—the Everest Grill helps users control the final result according to personal preference and food type. Flexible 105° and 180° Opening DesignThe grill can open at 105° for traditional contact grilling or 180° for flat open cooking. This allows users to prepare more food at once or cook different ingredients on both plates. Easy Cleaning with Removable Non-Stick PlatesThe removable non-stick plates help reduce food sticking and make cleanup easier after each use, especially after grilling meat, sandwiches, burgers, or cheese-based foods. Technical Specifications Product Type: Digital Electric Grill Brand: Ufesa Model: Everest Power: 2000W Control Type: Intuitive touch screen Preset Programs: 5 programs Preset Options: Meat, chicken, fish, sandwiches, hamburgers Cooking Levels: Rare, medium, well done Temperature Control: Adjustable up to 230°C Time Control: Digital time control up to 30 minutes Opening Angles: 105° and 180° Plate Type: Removable non-stick plates Use Case: Grilling, sandwiches, burgers, meat, chicken, fish, quick meals, family cooking, and countertop kitchen use Cooking Programs Meat Chicken Fish Sandwiches Hamburgers The preset programs make the grill easier to use for common meals and reduce the need for manual setting adjustments.
