Description

Ufesa DolceVita 30cm Non-Stick Crepe Maker The Ufesa DolceVita Non-Stick Plate Crepe Maker is designed for users who want an easy countertop appliance for making crepes, pancakes, omelets, and sweet or savory snacks at home. With 1000W power, a large 30cm non-stick cooking plate, adjustable temperature control, thermostat-controlled indicator light, safety thermal cutout, thermal fuse, non-slip feet, and included accessories, it is a practical crepe maker for breakfasts, desserts, family snacks, and casual home cooking.

Key Features

- 1000W Crepe Maker** Provides practical heating power for preparing crepes, pancakes, omelets, and similar recipes.
- Large 30cm Cooking Plate** The 30cm diameter plate gives enough space for making wide crepes and larger breakfast portions.
- Non-Stick Plate Coating** Helps prevent sticking and makes cleaning easier after cooking.
- Adjustable Temperature Knob** Allows users to control browning, texture, and cooking intensity based on the recipe.
- Thermostat-Controlled Indicator Light** Shows when the crepe maker is ready to use for better cooking timing.
- Safety Thermal Cutout** Helps protect the appliance during operation.
- Thermal Fuse Protection** Adds another safety layer for daily use.
- Non-Slip Feet** Keeps the crepe maker more stable on the countertop while cooking.
- Easy-Clean Design** The non-stick surface allows faster cleanup after preparing crepes or pancakes.
- Accessories Included** Comes with essential accessories so users can start making crepes more easily.

Main Feature Sections

- Perfect for Crepes, Pancakes, and Snacks** The Ufesa DolceVita Crepe Maker is a practical kitchen appliance for breakfast and snack preparation. It is suitable for crepes, pancakes, omelets, and other flat cooking recipes that need a wide heated surface.
- Large 30cm Non-Stick Plate** The 30cm cooking plate gives users enough space to prepare larger crepes with better control. The non-stick coating helps reduce sticking and makes the surface easier to clean after use.
- Adjustable Temperature Control** The temperature knob lets users adjust the heat depending on the recipe. Lower settings are useful for gentler cooking, while higher settings help achieve stronger browning and firmer texture.
- Ready-to-Use Indicator Light** The thermostat-controlled indicator light helps users know when the plate has reached the right temperature, making cooking easier and more consistent.
- Stable and Safety-Focused Design** The non-slip feet help keep the appliance stable on the countertop, while the thermal cutout and thermal fuse support safer everyday operation.

Technical Specifications

- Product Type:** Electric Crepe Maker
- Brand:** Ufesa
- Model:** DolceVita
- Power:** 1000W
- Plate Diameter:** 30cm
- Plate Type:** Non-stick cooking plate
- Temperature Control:** Adjustable temperature knob
- Indicator:** Thermostat-controlled indicator light
- Safety Features:** Safety thermal cutout and thermal fuse
- Base:** Non-slip feet
- Accessories:** Essential crepe-making accessories included

Use Case: Crepes, pancakes, omelets, breakfast recipes, desserts, snacks, and home cooking

Cooking Plate Diameter: 30cm

Surface: Non-stick coating

Suitable For: Crepes, pancakes, omelets, and similar flat recipes

The large non-stick plate helps users spread batter more easily and remove food with less sticking.

Temperature Control

- Control Type:** Adjustable temperature knob
- Indicator Light:** Thermostat-controlled ready indicator
- Temperature control helps users adjust cooking results depending on the batter, thickness, browning preference, and recipe type.

Safety & Stability

- Thermal Cutout:** Supported
- Thermal Fuse:** Supported
- Non-Slip Feet:** Supported
- Use the appliance on a flat, stable, heat-resistant surface and keep it away from water during operation.

Best Use Cases

- Homemade crepes
- Pancakes
- Omelets
- Breakfast preparation
- Sweet snacks
- Savory snacks
- Family desserts
- Weekend brunch
- Quick kitchen treats

Users who want easy non-stick cooking

Users who want a dedicated crepe plate instead of using a frying pan

Compatibility

Suitable for countertop kitchen use

Works with crepe batter, pancake batter, omelet mixture, and similar recipes

Best results depend on batter thickness, temperature setting, cooking time, spreading technique, and cleaning routine.
