Description

Ufesa Katana CF0918 Electric Food Slicer The Ufesa Katana CF0918 Electric Food Slicer is designed for users who want a compact electric slicer for bread, sausage, vegetables, cheese, and everyday kitchen preparation. With 150W power, a removable 170mm stainless steel blade, adjustable cutting thickness from 0 to 15mm, folding food tray, removable bottom, safety button, and non-slip base, it is a practical countertop slicer for more consistent slices at home. Key Features 150W Electric Food SlicerProvides practical cutting power for everyday kitchen slicing tasks. 170mm Stainless Steel BladeRemovable stainless steel blade helps slice bread, sausage, vegetables, cheese, and other compatible foods. Adjustable Slice ThicknessThickness regulator allows users to adjust slices from 0 to 15mm depending on food type and preference. Folding Food TrayCollapsible tray helps reduce storage space when the slicer is not in use. Removable BottomMakes cleaning and handling easier after food preparation. Safety ButtonHelps prevent accidental operation during use. Non-Slip BaseProvides better stability on the countertop while slicing. Compact Kitchen DesignProduct dimensions of 15 × 25 × 12cm make it suitable for home kitchens with limited storage space. Universal Cutting UseSuitable for bread, sausage, vegetables, cheese, and similar foods. Main Feature Sections Practical Slicing for Everyday FoodThe Ufesa Katana CF0918 is built for users who want more consistent slices without using a manual knife for every task. It is useful for preparing bread, cold cuts, sausages, vegetables, and cheese. Adjustable Thickness from 0 to 15mmThe thickness regulator allows users to choose thinner or thicker slices depending on the food and desired result. This makes it flexible for breakfast, sandwiches, snacks, and meal preparation. Removable Stainless Steel BladeThe 170mm stainless steel blade is removable, making cleaning easier after use and helping maintain better hygiene in daily kitchen preparation. Foldable and Space-Saving DesignThe folding food tray and compact body make the slicer easier to store compared to larger countertop slicing machines. Safety-Focused OperationThe safety button and non-slip base help make operation more controlled during slicing, especially when working on a kitchen countertop. Technical Specifications Product Type: Electric Food Slicer Brand: Ufesa Model: Katana CF0918 Power: 150W Blade Type: Removable stainless steel blade Blade Diameter: 170mm Cutting Thickness: Adjustable from 0 to 15mm Food Tray: Folding tray Bottom: Removable bottom Safety Feature: Safety button Base: Non-slip bottom Material: Plastic body with stainless steel blade Color: Black Product Dimensions: 15 × 25 × 12cm Use Case: Bread slicing, sausage slicing, vegetable slicing, cheese slicing, sandwich preparation, home kitchen use, and food preparation Cutting System Blade Diameter: 170mm Blade Material: Stainless steel Blade Design: Removable Thickness Adjustment: 0–15mm The adjustable cutting system makes it suitable for different food textures and slice thickness preferences. Safety & Cleaning Safety Button: Supported Non-Slip Base: Supported Removable Blade: Supported Removable Bottom: Supported Always switch off and disconnect the slicer before cleaning, removing the blade, or handling food residue.
