Description

Stay cozy and comfortable with the Zilan Electric Wall Mounted Heater — your sleek, space-saving heating solution. This ultrathin design fits seamlessly into any room while delivering powerful warmth exactly when you need it. Enjoy whisper-quiet operation thanks to the high-performance copper motor, and customize your comfort with adjustable temperatures from 10 to 49°C. Control it effortlessly with the included remote or manual controls, and let the smart 12-hour timer handle the rest. The cool fan function keeps things fresh in warmer months, while automatic overheat protection and open window detection keep your home safe. Perfect for bathrooms and kitchens with its IP22 waterproof rating, this 2200W heater features an LED display for easy monitoring and wide-angle oscillation to spread warmth throughout your space. Lightweight at just 3.33kg, it's the practical comfort upgrade your home deserves.
