Product	Beper Electrolytic Disinfectant Maker
SKU	cm-P202val100
Brand	Beper
Category	Consumer Electronics
Minimum order quantity	1
Unit	—
Unit price	$31.00
Available quantity	100

Description

Innovative nebulizer spray which, thanks to the electrolysis process, is able to produce a disinfectant solution based on sodium hypochlorite. Sodium hypochlorite has numerous applications, from agriculture to food and pharmaceutical industries, and is frequently used for the purification and disinfection of the home. 200 ml of water and 10 grams of kitchen salt will be enough, and in 5 minutes it will be possible to obtain a sanitizing solution for cleaning and disinfection of the home and rooms. Working by USB cable (included) allows the use in any situation, even in the office and on the trip. With automatic switch-off timer after 5 minutes, for maximum safety.USB 200ML 5MIN AUTO SHUT-OFF 99.9% GREM FREE Dimensions (WxDxH): 11×7,8×21,6cm Weight: 1,15kg
