Product	Beurer Upper Arm Blood Pressure Monitor BM53
SKU	cm-BM53
Brand	Beurer
Category	Peripherals
Minimum order quantity	1
Unit	—
Unit price	$78.00
Available quantity	100

Description

Fully automatic blood pressure and pulse measurement with advanced arrhythmia detection The BM 53 from Beurer is your ideal health companion for monitoring your blood pressure and pulse values at home. The large, clear display and the colour-coded classification of measured values make it particularly easy to understand. With advanced arrhythmia detection, the device detects atrial fibrillation and aids in the early detection of strokes. Advanced arrhythmia detection: Detects atrial fibrillation to help prevent strokes Triple measurement as recommended by doctors for even more accurate measurements Clinically validated for reliable measurements, even during pregnancy Scan & Save: Digitally record blood pressure values in the “beurer HealthManager Pro” app Fully automatic blood pressure and pulse measurement on the upper arm Automatic pressure preselection and deflation Resting indicator for precise measurements Risk indicator: With integrated scale in the display for classifying measurements Cuff fit check: For ensuring the cuff is correctly placed on the upper arm Average value of all stored measurements and the morning/evening blood pressure calculated for the last 7 days 2 users with 100 measurements each Clear, easy-to-read display Incl. cuff for upper arm circumferences of 22–42 cm Incl. storage bag Incl. blood pressure record for documenting the measured values Mains adapter available separately Medical device
