Description

An ultra-thin and ultra-light phone case with MagSafe compatibility. Powered by our exclusive PitaTap™ technology Crafted from aerospace-grade aramid fiber for strength and elegance Ultra-thin and feather-light for a barely-there feel 100% MagSafe compatible and wireless charging ready Scratch-resistant and durable for long-lasting use Thickness: Approx. 0.9 mm; Weight: Approx. 20.65g / 0.73oz Aerospace-Grade Aramid Strength Made from aerospace-grade aramid fiber, which is 5x stronger than steel and weighs just 1/5 as much. It’s ultra-thin, incredibly tough, and built for premium protection—without the bulk. Premium Weave Crafted from finely woven aramid fiber, our case offers a silky-smooth, luxurious texture you can feel. It’s not just light and strong—it’s a pleasure to hold, every single time. PitaTap™ A case under 1 mm thick shields the Camera Control Button with aramid fiber, while a hidden capacitive layer lets you tap and slide effortlessly. Seamlessly integrated, it preserves the aramid texture for precise, responsive control. Paper Thin & Feather Light Offers a sleek, barely-there profile that preserves your phone’s original feel. Ideal for minimalists seeking elegant protection without added weight. Weight≈20 g Thickness≈0.99 mm *Tested by PITAKA Lab, individual units may have slight variances
