Description

Are you looking for a slow cooker that saves you space in your kitchen and still gives you a powerful performance? Then you'll love the Compact Home Slow Cooker that combines all of the benefits of a larger slow cooker into this perfectly sized design. Adding a premium touch to your kitchen with its brushed stainless steel and chrome accents, this slow cooker is as impressive in style as it is in performance. Letting you explore a range of flavoursome recipes, this small slow cooker can cook up beef stews, spicy lentil curries, classic chicken casseroles and more. 2L compact capacity Premium, durable brushed stainless steel finish 3 heat settings. high, low & warm Tempered glass lid Lid hanger detail to lid handle Removable ceramic pot 145W Rated Power Tempered glass lid The Compact Home Slow Cooker has a strong, tempered glass lid designed to conceal in all of the heat whilst you're cooking. And for those of you that like to keep an eye on your cooking, you can easily take a sneak peek inside at what's cooking 3 Settings - High, warm and low Whatever recipe you're cooking up in the kitchen, the Compact Home Slow Cooker has a heat setting for your every need. With a high setting that can thicken up your soup, reducing its moisture or a low setting that can be used for slow cooking a beef stew - there's a temperature for every recipe. And if you're hungry enough for seconds or someone's going to be a little late home for dinner, you can use the warm function to keep your food heated
