Description

Surround yourself with sound : The XP700 is made up of several speakers, including a front and rear High-efficiency Tweeter and an X-Balanced Speaker Unit, to give you an Omnidirectional Party Sound with a punchy and deep bass and plenty of clarity. X-Balanced Speaker Unit : The innovative X-Balanced Speaker Unit has a non-circular diaphragm with more area than conventional speakers. That means that you’ll get a richer, clearer sound, no matter what style of music you’re listening to. Light up the night : Thanks to brand-new ambient lighting, you can select a variety of different lighting patterns that can bring pulsating energy to parties or soothing sombre shades to a quiet night in. Give the bass a boost : MEGA BASS allows you to really dial up the bass. So if you're listening to something with a beat, you'll get a deep and punchy bass sound. Listen loud and clear : The combination of the X-Balanced Speaker Unit with a front and rear High-efficiency Tweeter, gives the XP700 an expansive profile that delivers high quality sound all over your venue Enjoy powerful omnidirectional sound with the SRS-XP700. This wireless speaker is designed to deliver deep, punchy bass and rich, clear sound - whatever you are listening to - thanks to the X-Balanced Speaker unit and front (x3) and rear (x1) High-efficiency tweeters. And to give bass an extra boost, just hit the MEGA BASS button LIVE LIFE LOUD and create memorable moments with the SRS-XP700. depending on layout only 2 front tweeters work at any given time Multi-colour lighting that fits your mood or occasion, from pulsating to ambient. Just go to the Sony, Music Center app to select your favourite pattern, and use the app to optimise your audio settings or control your music too With 25 hours of battery life, quick charging (10 mins for 3 hrs battery) and smartphone charging via USB-C, you can keep the tunes going. The SRS-XP700 Sony speaker is splashproof too (IPX4 rating), so even the rain or a spill won't ruin your party. It is easy to move your speaker around your home - just grab it by the convenient built-in handle Love karaoke or playing guitar With two inputs, you can plug in two microphones or use one input for your guitar and use the karaoke speaker as an amp Make your party even bigger with Party Connect via Bluetooth. Connect up to 100 compatible Sony Bluetooth speaker models to enjoy synchronised sound and lighting Specs SPEAKER SIZE Diameter of Speaker Unit(Tweeter) front 6cm x 3 rear 5cm x 1, Diameter of Speaker Unit(woofer) 17cm x 2 BATTERY LIFE 25 HOURS INPUT AND OUTPUT TERMINALS Stereo Mini Jack(IN), USB A, Mic Input(φ6.3mm), Guitar Input(φ6.3mm)
