Available quantity	0

Description

Bose QuietComfort Ultra Earbuds 2nd Gen The Bose QuietComfort Ultra Earbuds 2nd Gen are designed for users who want premium in-ear noise cancellation, personalized sound, immersive audio, clear calls, and a seamless wireless listening experience Its strongest selling point is not only Bose noise cancelling. The real value is the complete premium earbud experience: CustomTune technology, Bose Immersive Audio, Quiet / Aware / Immersion Modes, AI-powered call clarity, multipoint Bluetooth, wireless charging case support, and a customizable secure fit Key Features Bose premium true wireless earbuds Best Bose in-ear noise cancellation CustomTune technology Bose Immersive Audio Quiet Mode for full noise cancellation Aware Mode for transparency Immersion Mode with noise cancelling and spatial audio ActiveSense technology for smoother surrounding sound spikes Noise-rejecting microphones AI-based background noise suppression Wind noise filtering for clearer calls Use one or both earbuds for calls Bluetooth multipoint connectivity Up to 6 hours playtime in Quiet or Aware Mode Up to 4 hours playtime with Immersive Audio Charging case provides up to 3 full extra charges Wireless charging capability Bose app support for updates and features 9 fit combinations with eartips and stability bands Personalized Bose Sound CustomTune Technology CustomTune technology analyzes the shape of your ears and automatically adapts the earbuds’ sound and noise cancellation to your personal fit. Real Buyer Benefit This gives users a more customized listening experience instead of a one-size-fits-all sound profile. Noise Cancellation Bose In-Ear Noise Cancelling The QuietComfort Ultra Earbuds 2nd Gen are built for Bose’s strongest in-ear noise cancellation, helping reduce distractions during travel, work, commuting, studying, and everyday listening. ActiveSense Technology ActiveSense helps smooth sudden spikes in surrounding sound, especially in Aware Mode, so users can stay aware without harsh environmental interruptions. Listening Modes Quiet Mode Quiet Mode gives full noise cancellation for focused listening. Aware Mode Aware Mode lets users hear their surroundings with high transparency, useful for walking, commuting, office use, or quick conversations. Immersion Mode Immersion Mode combines noise cancellation with Bose Immersive Audio for a more spacious and realistic listening experience. Immersive Audio Bose Immersive Audio Bose Immersive Audio spatializes sound, making music feel like it is placed beyond the earbuds instead of inside your head. Best For Music, movies, podcasts, live performances, and users who want a wider, more emotional listening experience. Fit & Comfort Bose Fit Kit Included The earbuds include three sizes of eartips and three sizes of stability bands, giving up to nine possible fit combinations. Secure In-Ear Seal The soft umbrella-shaped tips help seal the ear opening to improve comfort, reduce outside noise, and support better sound performance. Stable Daily Wear The stability bands help the earbuds stay secure during movement, commuting, workouts, and long listening sessions. Call Quality Noise-Rejecting Microphones The earbuds use noise-rejecting microphones and AI-based background noise suppression to help keep your voice clear during calls. Wind and Background Noise Filtering The call system helps reduce surrounding noise and wind so your voice remains easier to hear. Single or Dual Earbud Calling Users can take calls with both earbuds or only one earbud depending on preference. Battery Life Earbud Playback Up to 6 hours in Quiet or Aware Mode Up to 4 hours with Immersive Audio Charging Case The charging case provides up to 3 full additional charges. Wireless Charging The case supports wireless charging for easier daily charging convenience. Connectivity Bluetooth Multipoint Bluetooth multipoint allows users to switch between devices, such as phone, laptop, and tablet, without manually disconnecting and reconnecting. Bose App Support The Bose app provides software updates, feature access, and settings control for the earbuds.
