Description

Yale Smart Indoor Camera Keep an eye on the inside of your home with the Smart Indoor Camera The Yale Smart Indoor Camera lets you keep an eye on the inside of your home while you're away. Ideal for pet owners, parents who want to keep an eye on their kids, or anyone who wants to check in on elderly parents, the Smart Indoor Camera provides crisp 1080p HD image, live view, motion-triggered recordings, 6m night vision, detailed notifications, a two-way audio talk feature, and integration with leading voice assistants. The 8x digital zoom in both live view and recordings, allows you to focus in on a person or object for additional clarity. Snapshot feature allows you to capture a still image from live view or recordings. You can also see what's happening at home from anywhere in the world in the Yale Home app, with the option to record videos or capture images to review and save at any time locally or in the cloud. 2-4 days of recordings stored locally, with no need for subscription (storage is dependant on streaming quality 1080p - 720p and clip length). You can also download your video clips onto your smartphone via the activity feed with an adjustable clip length from 10-60 seconds. Subscription plan is available for 30 days additional cloud storage. Privacy mode will turn your camera off when you arrive home for added convenience. * Built-in AI technology allows you to enable human detection, reducing the level of false alarm notifications sent to you. With customisable detection zones & scheduling**, you can define specific areas you want your camera to cover and use motion scheduling* to exclude notification triggers from regular occurrences such as your car pulling into your driveway in the evening after work. Pet detection features, as well as Cloud Recording options, are available through a subscription plan. Installation is simple: place the Smart Indoor Camera on a table or mount on a wall using the included mounting plate. Easily adjust the viewing angle, with up to 360 degrees rotation, so you can capture the view you want. *requires a Yale Smart Alarm **Motion Scheduling functionality will be available soon. What's in the box? 1x Smart Indoor Camera 1x EU/UK Adapter 1x USB-C Charging Cable 1x Mounting Plate Fixings & Fittings 1x Security Sticker 1x Quick Start Guide
