Description

The Yale Smart Video Doorbell, lets you see, hear and speak to visitors from anywhere, anytime. The Smart Video Doorbell offers you a crisp 1080p Full HD image, a 154° field of view, two-way audio talk, live viewing, and night vision for clear footage that can be viewed 24/7 in the Yale Home app. The Yale Doorbell is easy to set up and use and powered by a built-in rechargeable battery or wired-powered solution Yale Smart Video Doorbell The Yale Smart Video Doorbell, lets you see, hear and speak to visitors from anywhere, anytime. The Smart Video Doorbell offers you a crisp 1080p Full HD image, a 154° field of view, two-way audio talk, live viewing, and night vision for clear footage that can be viewed 24/7 in the Yale Home app. The Yale Doorbell is easy to set up and use and powered by a built-in rechargeable or wired-powered solution. Receive detailed notifications in real-time whenever motion is detected, and a “call” once visitors press the doorbell, to never miss a delivery or guest again. As part of the Yale Smart Security Ecosystem, when the Smart Doorbell is rung, you can check who is at your door using the Yale Home app and if safe, can unlock your door using your Yale Smart Lock to let them in. The Smart Video Doorbell also offers additional monitoring features such as human detection AI, and customisable privacy zones & scheduling. Other AI features, such as vehicle, pet and package detection and Cloud Recording, are available through a subscription plan for additional coverage and peace of mind. Accessories such as the Smart Video Doorbell Chime, which ensures the doorbell can be heard anywhere within your home and allows you to choose from 7 distinct and captivating Yale sounds, and the power adapter, a user-friendly solution that ensures your smart doorbell is powered at all times, can be added for additional support Around the clock HD live feed for additional peace of mind Keep an eye out and always know who is at your doorstep, regardless of the time. The Yale Smart Video Doorbell is self-monitoring, offering you a crisp 1080p HD outdoor camera and night vision, for a crystal clear live feed 24/7. Allowing you to check in on your home, and save pictures or record video locally or to the cloud whenever motion is detected A customizable security system to suit your lifestyle Easy to operate, with hassle-free installation, the Smart Video Doorbell offers you the ability to design a security system perfectly tailored to your needs. The Smart Video Doorbell comes with the ability to set up customisable detection zones & scheduling, so you can define specific areas you want your doorbell camera to cover. Using motion scheduling you can exclude notification triggers and image recording from regular occurrences, like your car pulling into your driveway in the evening after work, for additional convenience Easy installation The Yale Doorbell comes with wall screws and wall plugs for an easy installation. Download the Yale Home app and follow the simple set-up steps to get started
