Description

Haier 75" QLED 4K Google TV 120Hz H75S80GUX The Haier 75" QLED 4K Google TV H75S80GUX is designed for users who want a large-screen home entertainment experience with strong color performance, smoother motion, and smart Google TV features. Its strongest selling point is not only the 75-inch size. The real value is the combination of QLED color, 120Hz refresh rate, HDMI 2.1 gaming support, Google TV, and bezel-less design. This makes it a strong option for movies, sports, gaming, streaming, and family entertainment. Key Features 75-inch QLED 4K display 3840 × 2160 Ultra HD resolution 120Hz refresh rate MEMC motion smoothing Quantum Dot technology with over 1 billion colors HDMI 2.1 support VRR and ALLM for gaming Google TV operating system Built-in Netflix, YouTube, and streaming apps Chromecast built-in Voice control support Dolby Audio sound system Bezel-less design Wi-Fi and Bluetooth connectivity 2GB RAM + 32GB storage Display Performance 75-Inch 4K QLED Screen The large 75-inch screen delivers a more immersive viewing experience for movies, sports, gaming, and streaming content. Quantum Dot Color QLED technology helps produce richer, more vibrant colors with over 1 billion color shades, improving image depth and visual realism. 4K Ultra HD Resolution The 3840 × 2160 resolution gives sharper detail for compatible 4K movies, shows, games, and YouTube content. Motion & Sports Viewing 120Hz Refresh Rate The 120Hz panel helps deliver smoother motion, especially for fast-moving scenes, sports, racing, and action content. MEMC Technology MEMC improves motion clarity by reducing blur and judder, making fast scenes easier to watch. Gaming Performance HDMI 2.1 Support HDMI 2.1 makes the TV more suitable for modern gaming consoles and high-performance gaming setups. VRR and ALLM VRR helps reduce screen tearing, while ALLM automatically switches to a lower-latency mode for gaming. Real Buyer Benefit This matters for PlayStation, Xbox, and PC gamers who want smoother frame rates and more responsive gameplay. Smart TV Experience Google TV Google TV organizes apps, movies, shows, and recommendations in one interface, making streaming easier and more intuitive. Built-In Apps Supports popular streaming apps such as Netflix and YouTube. Chromecast Built-In Chromecast allows users to cast content from compatible phones, tablets, and laptops directly to the TV. Voice Control Voice control support makes it easier to search content, launch apps, and control compatible smart features. Audio Experience Dolby Audio Dolby Audio support improves sound clarity and entertainment immersion compared to basic TV audio. Expectation Check For a stronger cinema experience, especially in a large room, pairing the TV with a soundbar will still improve bass, dialogue clarity, and surround effect. Design Bezel-Less Look The slim bezel-less design helps create a more immersive viewing experience and gives the TV a cleaner modern look in the living room.
