Description

The Russell Fiesta Crepe Maker, with its easy to operate heating system and non-stick 30cm plate, is easy to master and helps you to create crepes that are ready to top and eat. With a lip around the edge to stop batter dripping onto your worktop, it makes no mess, no fuss crepes! It also has a spreader to help you achieve an even size and shape. A button heats the plate and when the batter sets, you simply use the spreader provided to check that it's cooked underneath, and then turn it over. This advanced crepe maker also features a plate that is the same temperature all over to ensure crepes are cooked more evenly than in a frying pan. They don't break up or stick so you avoid burnt or still-raw pieces. With a host of easy to use features, bring a smile to everyone's face with crepes any time of the day Crepe Making Utensils Make perfect crepes the easy way with the specially designed utensils included Gourmet Crepes Perfect for the crepe connoisseur. Make real gourmet crepes with the 30cm diameter base and then top with whatever you fancy Specs Diameter: 30cm Adjustable thermostat Non-stick coating Tools included Power on and temperature ready indicator light 1200W
