Description

The Explore Mix & Go Cool is there for you through every step of your day. Whether it's a delicious breakfast smoothie with banana and berries that you crave or a vegetable-based smoothie on your worse-for-wear days, the Explore Mix & Go Cool helps you create a refreshing drink every time. The 600ml portable bottles allow you to quench your thirst on the move and on a hot summer's day while the cool tubes keep your drink at a comfortable temperature wherever the day takes you

Ice-Crushing Stainless Steel Removal The Mix & Go Cool has ice-crushing stainless steel removable blades, great for blending down your ice cold summer smoothies. The removable blades are dishwasher safe so you can save time on the washing up and put the parts in the dishwasher, making sure they are ready for your next creation

2x Chill Sticks Also make use of the freezable chill sticks to keep your drinks cooler and fresher for longer. As we understand that life is busy and one may not always be enough, we've even given you two chill sticks to ensure you always have one frozen and ready to pop into your drink
