Description

Exclusive AI Photographer With hohem gimbal, even a novice can capture stunning shots, thanks to its intuitive AI tracking capability. We've taken convenience to a whole new level with our gesture control feature, which sets your hands free. Our stabilizer for iPhone supports multiple mainstream live broadcast platforms. Whether you're a vlogger, a YouTuber, or someone who loves sharing videos via Tiktok, this gimbal ensures you can easily transfer your work to your preferred platform. Clamp and Use, Newbie-friendly No complicated leveling steps, just clamp and use. Unlike other gimbals that frustrate you with complex adjustments, our 3-axis stabilizer for iPhone features an auto-correction function, making it incredibly newbie-friendly. Fully charged, it can last an impressive 9 hours! Whether you're a passionate vlogger or someone who loves capturing all-day outings, our gimbal for iPhone is your perfect companion, ensuring you never miss a moment. Mini Size & Wide Compatibility With its compact size and lightweight design, weighs only 0.58 lbs. Our gimbal stabilizer for smartphone design makes it effortlessly foldable, allowing you to slip it into your pocket or bag without any hassle. hohem iSteady V2S phone gimbal is designed to be compatible with the latest mainstream mobile phone models on the market. With a remarkable load capacity of up to 0.62 lbs, it can effortlessly handle the weight of your smartphone. Experience 30% Anti-shake Upgrade hohem iSteady V2S Smartphone Gimbal Stabilizer is equipped with a 3-axis stabilizer, powered by the upgraded iSteady 7.0 anti-shake algorithm. Prepare to experience an astounding 30% improvement in anti-shake performance, resulting in unparalleled stability and smoothness like never before. Experience the smoothness, precision, and professional-grade results that will leave your viewers in awe. 3 Levels of Beauty Fill Light Say goodbye to dimly lit shots and hello to stunningly illuminated content. hohem gimbal stabilizer features 3 levels of beauty fill light, ensuring that you can effortlessly capture well-lit footage, even in the darkest of environments. Whether you're capturing memorable moments at a late-night party or documenting your nighttime adventures, our gimbal's fill light functionality will illuminate your subjects, making their skin appear more transparent and radiant Specs Weight 263g Size Unfolded: 249.6mm*72.4mm*66.3mm Folded: 179mm*79mm*39mm Smartphone Weight 170g~280g Smartphone Thickness 6.9mm~10mm Smartphone Width 55mm~90mm Controllable Range Pan: 320° Roll: 320° Tilt: 320° Working Temperature -10~45° C Motor Protection The motor can be protected from damage caused by improper operation by having the gimbal powered off automatically.
