Product	Hohem iSteady M6 Kit
SKU	cm-hohem-m6-kit
Brand	Hohem
Category	Camera & Photo
Minimum order quantity	1
Unit	—
Unit price	$148.00
Available quantity	0

Description

AI Tracker with Adjustable Fill Light hohem M6 kit smartphone stabilizer is equipped with an innovative AI tracker which can perform face/body tracking smoothly without Bluetooth connection and App limitations. The AI vision sensor can be activated or inactivated by dedicated gestures, ensuring the subject is always in the frame. The brightness-adjustable CCT/RGB fill light supports cool and warm light and 360 RGB ambient colors, making it easy to shoot in low-light environments. 7th-Gen iSteady Stabilization Algorithm With the upgraded 3-Axis stabilization and iSteady 7.0 anti-shake technology, this phone gimbal is a game-changer for content creators of all levels. You can now capture breathtaking moments with unparalleled stability and smoothness, whether it's filming your passion project, vlogging your daily life, or taking stunning selfies. Elevate your content with iSteady M6 phone gimbal. NOTE: Mount & Balance First to Prevent Motor Overheating. Unlimited Shooting Angle Experience the newly developed "Inception" mode with the phone stabilizer for video recording! This mode allows you to rotate your phone 360° vertically and infinitely when shooting without any app limitations. The rolling direction and pitching direction can reach a large angle of rotation of 335°, so you no longer need to worry about limited angles and incomplete framing. With the iPhone gimbal, it is easy to create dynamic and creative shots with no regrets. Magnetic Fill Light Integrated with AI VisionSensor Rear Camera Tracking Feasible Magnetically Removable AI Vision Sensor With removable AI-powered sensor, you can switch between the front and rear camera to achieve flexible "Follow You" with ease no matter if you are facing or facing away from the phone screen AI Tracking In All Mobile Apps Full Camera Control for Social Media Video Creation Thanks to its built-in AI vision sensor, the AI tracking can be enabled in all mobile apps including the native camera app and beauty apps, even if the gimbal-exclusive app is not connected to gimbal device Simple Guesture to Control *You can use iSteady M6 with phone's native camera and other apps including beauty apps, TikTok, and so forth Dual Sided Powering On Ultra-Wide-Angle Shots Made Easy The gimbal can be powered on whether your phone is in front of or behind the roll motor. It's perfect to capture unobstructed view when your phone screen is facing the roll motor. Dual Sided Powering On Ultra-Wide-Angle Shots Made Easy The gimbal can be powered on whether your phone is in front of or behind the roll motor. It's perfect to capture unobstructed view when your phone screen is facing the roll motor. Specs Weight(Gimbal): 551g (Including battery) Main Material: High-Performance Composites Payload: 400g Mobile Width□58mm~98mm Mechanical Range:Pan: 360° Infinite Rotation Roll: 335° Tilt: 335° Working Temperature: -10~45°C Motors Protection: The motor can be protected from damage caused by improper operation by having the gimbal powered off automatically
