Description

Ultra-large 1.96" HD AMOLED Display and Fashionable Curved & Metallic Design?- The Pop 3S middle frame and buttons are made with highly glossy metal, which makes the watch shiny and exquisite. It adopts a classic square design to enhance your most fashionable outfits, and features a 2.5D curved glass screen and large AMOLED display.The large 1.96" HD AMOLED display can be set to be always-on, has a high resolution of 410x502,330 PPI to provide a vibrant and clear visual experience. Bluetooth Calling & AI Voice Assistant?- The watch includes a microphone and speaker to let you make and answer calls on your watch when it's inconvenient to pick up your mobile phone. Connect the watch to your mobile phone via Bluetooth to ensure that you can always keep up with the important people in your life.The watch allows you to interact with smart phone AI voice assistants like Siri, Google assistant, etc. Get answers, manage tasks and more via your watch, through Bluetooth connection to your phone. 24H Heart Rate, SpO2 & Stress Monitoring?- The watch can monitor your heart rate, blood-oxygen and stress level all day, allowing you to know more about your physical condition. In addition, the watch will provide warnings for excessively high heart rates.The watch can track your total sleep, light sleep & deep sleep periods, awake time, fall asleep time and wake-up time 12-day Battery Life?- This ultra-compact smartwatch packs a mega-powerful 300 mAh battery, bringing 12 days of endurance on typical usage.; ?100+ Sports Modes?- Track every trek you take or every football, cricket kabaddi match you play. With over 100 sports modes Pop 3S has you covered. Premium Light weight Design with Titanium Alloy: Decorated with a durable titanium alloy bezel, this smart watch is built from light weight fiber-reinforced polymer, and comes with a comfortable nylon strap. The responsive crown and button allow easy control while running, while the bright and clear HD AMOLED display with Corning Gorilla Glass 3 is easy to read in any environment. Advanced 24/7 Health and Fitness Data: The BioTracker PPG optical sensor enables highly-accurate monitoring of your heart rate, blood-oxygen, stress level and sleep quality. Connect to a heart rate belt when you go running, thanks to the powerful Bluetooth connectivity of the health-centered OS 2.0. Ultra Long Battery Life: Enjoy up to 14 days of battery life with typical usage, or even up to 45 days in Clock Mode. Enable the Automatic GPS Mode and the watch will intelligently adjust GPS settings to save power when you're running in areas with strong satellite signals. Online and Offline Voice Assistants: Take the Amazon Alexa voice assistant with you on your runs to check the weather, set an alarm, and more! When you're without internet access, use the watch's Offline Voice Assistant to carry out hands-free operation of the watch. Connect to Fitness Apps: Share your workout data to adidas Running, Strava, Komoot and Relive - and even smartphone apps like Apple Health and Google Fit
