Description

Thin, light, and easy to grip — this Apple-designed case shows off the brilliant colored finish of iPhone 17 while providing extra protection. Crafted with a blend of optically clear polycarbonate and flexible materials, the case fits right over the buttons for easy use. This case works seamlessly with Camera Control. It features a sapphire crystal coupled to a conductive layer to communicate finger movements to Camera Control. On the surface, a scratch-resistant coating has been applied to both the interior and exterior. And all materials and coatings are optimized to prevent yellowing over time. With built-in magnets that align perfectly with iPhone 17, this case offers a magical attach experience and faster wireless charging, every time. When it’s time to charge, just leave the case on your iPhone and snap on your MagSafe charger, or set it on your Qi2 25W or Qi-certified charger. Like every Apple-designed case, it undergoes thousands of hours of testing throughout the design and manufacturing process. So not only does it look great, it’s built to protect your iPhone from scratches and drops.
