Product	Anker 30W Dual Port Car Charger
SKU	cm-A2741H11
Brand	Anker
Category	Car Electronics
Minimum order quantity	1
Unit	—
Unit price	\$14.00
Available quantity	100

Description

Anker 30W Ultra Compact Dual Port Car Charger The Anker 30W Ultra Compact Dual Port Car Charger is designed for users who need fast, reliable charging while driving without adding bulky accessories inside the car. Its strongest selling point is not just 30W charging. The real value is compact dual-port convenience: one USB-C fast-charging port, one USB-A port, and intelligent protection in a small car charger that can power two devices at the same time. Key Features 30W USB-C fast charging Dual-port design with USB-C and USB-A Charges two devices simultaneously Ultra-compact car charger body Up to 3× faster charging than standard 5W chargers Intelligent power allocation Overvoltage protection Undervoltage protection Overcurrent protection Over-temperature protection Ideal for iPhone, Android phones, tablets and accessories Charging Performance 30W USB-C Port The USB-C port delivers up to 30W power, making it suitable for fast charging smartphones and many USB-C devices while on the road. Faster Than Standard Chargers Compared to basic 5W chargers, the 30W USB-C port provides much faster charging for compatible devices. Dual-Device Charging USB-C + USB-A Ports The dual-port design allows users to charge two devices at once, making it practical for drivers, passengers, families, and ride-sharing use. Real Buyer Benefit This removes the need to switch cables or choose which phone charges first during car trips. Compact Design Ultra-Small Form Factor The charger is built to fit neatly into the car power socket without taking up unnecessary dashboard or console space. Best For Daily commuting, travel, delivery drivers, road trips, and users who want a clean car setup. Safety Features Charging Protection Includes protection against overvoltage, undervoltage, overcurrent, and over-temperature. Intelligent Power Allocation The charger helps distribute power efficiently between connected devices for safer and more reliable charging. Technical Specifications Product Type Dual-port car charger Power Output Up to 30W via USB-C Ports USB-C and USB-A Charging Type Fast charging Protection Features Overvoltage, undervoltage, overcurrent, and over-temperature protection Device Support Smartphones, tablets, and USB-powered accessories What's in the Box Anker 30W Dual Port Car Charger Welcome guide
