Description

Huawei Sound Joy 2 Portable Bluetooth Speaker The Huawei Sound Joy 2 Portable Speaker is designed for users who want powerful portable sound, long battery life, and outdoor-ready durability in one Bluetooth speaker. With a Quad-Unit HUAWEI SOUND system, 20W full-range speaker, 10W tweeter, dual passive radiators, IP67 dust and water resistance, up to 26 hours of listening, Type-C fast charging, stereo pairing by shake, multi-speaker connection, and built-in microphones, it is built for music, travel, outdoor gatherings, and daily wireless listening. Key Features Quad-Unit HUAWEI SOUND SystemUses a four-unit audio structure to deliver fuller and stronger sound than basic portable speakers. 20W Full-Range SpeakerHandles the main audio output for balanced daily listening, music playback, and outdoor use. 10W TweeterImproves high-frequency clarity for vocals, instruments, and detailed audio. Dual Passive RadiatorsHelps enhance bass response for a deeper and more energetic sound. IP67 Dust & Water ResistanceDesigned for outdoor use, beach trips, poolside listening, camping, travel, and daily durability. Up to 26 Hours Battery LifeLong listening time makes it suitable for full-day use, gatherings, trips, and outdoor activities. USB Type-C Fast ChargingUses a modern Type-C charging port for easier and more convenient recharging. Built-In 3 MicrophonesSupports voice pickup for calls and compatible smart interaction features. Shake for Stereo PairingPair compatible speakers by shaking them together for a wider stereo listening experience. Connect Up to 100 SpeakersSupports multi-speaker connection for larger spaces, group listening, and events with compatible speakers. Tap to Transfer AudioAllows easier audio switching from compatible Huawei devices. Portable Outdoor-Ready DesignBuilt for users who want a speaker that can move from home to outdoor use easily. Sound Performance Quad-Unit HUAWEI SOUND SystemThe Huawei Sound Joy 2 uses a quad-unit audio structure to create stronger and fuller portable sound for music, podcasts, calls, and outdoor listening. 20W Full-Range Speaker + 10W TweeterThe 20W full-range speaker handles the main sound output, while the 10W tweeter improves high-frequency clarity. This helps vocals, instruments, and detailed audio sound cleaner. Dual Passive RadiatorsThe two passive radiators help boost bass response, giving the speaker a fuller and more dynamic sound for gatherings, outdoor use, and everyday music playback. Stereo & Multi-Speaker Playback Shake for StereoUsers can pair compatible Huawei Sound Joy 2 speakers by shaking them together, creating a wider left-right stereo experience. Connect Up to 100 SpeakersThe multi-speaker connection feature allows up to 100 compatible speakers to connect together, making it useful for larger rooms, outdoor spaces, and group listening setups.
