

Product specification sheet

Product	Huawei Watch GT 6 Pro (Titanium Silver)
SKU	cm-gt6pro-silver
Brand	Huawei
Category	Smart Electronics
Minimum order quantity	1
Unit	—
Unit price	\$370.00
Available quantity	100

Description

1.47-inch AMOLED display, up to 3,000 nits Sapphire Glass Titanium Alloy Stylish and Durable Accurate GPS and Heart Rate for Advanced Sports ECG Analysis Know your Heart Health Supports Free-diving up to 40 meters 100+ Sports mode Including Skiing Pro-level Cycling Tracking with Virtual Cycling Power Up to 21- Day Battery Life. Compatible with IOS & Android Dimensions 45.6 mm × 45.6 mm × 11.25 mm *Product size, product weight, and related specifications are theoretical values only. Actual measurements between individual products may vary. All specifications are subject to the actual product. Wrist Size 140-210 mm Speaker Supported Microphone Supported Weight Approximately 54.7 g (strap excluded) *Product size, product weight, and related specifications are theoretical values only. Actual measurements between individual products may vary. All specifications are subject to the actual product. Display Size 1.47 inches AMOLED color screen Resolution 466 × 466 pixels, PPI 317 Sensors Accelerometer sensor Gyroscope sensor Magnetometer sensor Optical heart rate sensor Barometer sensor Temperature sensor Ambient light sensor ECG sensor Depth sensor Button Home Button (Rotating Crown) and Side Button Water Resistance Level 5 ATM *Complies with 5 ATM-rated water resistance under the ISO 22810:2010 standard, which indicates that the device can withstand up to 50 metres of static water pressure for 10 minutes, but does not mean that the product is water-resistant in water that is 50-metre deep. IP69 *Complies with the IP69-rated water resistance under the IEC 60529:2013 standard. The IPX9 test conditions are as follows: water temperature: 80 ± 5°C; water flow: 15 ± 1 L/min; water pressure: 10,000 ± 500 kPa; spray angle: 0°, 30°, 60°, and 90°, 30 seconds for each angle. This does not indicate protection during hot water showers. Dive (Depth up to 40 metres) *Complies with the EN13319 standard for diving accessories, and supports free dives at depths of up to 40 metres. It can be worn during shallow water activities such as swimming in a pool or along the coast. After wearing the device in water activities, clean and dry it promptly, remove the water stains from the product surfaces and all holes, and use the device's drainage feature to avoid negative impact on device performance. The Huawei Watch GT 6 Pro should not be worn in the following scenarios: (Damage to the device caused by immersion in liquid is not covered by the warranty if the device is worn in an inappropriate scenario.) (1) Hot showers, hot springs, saunas (steam rooms), and other activities in high-temperature and/or high-humidity environments. (2) Activities that could expose the device to shower gel, shampoo, soapy water, and any other laundry or cleaning products. If the device does come into contact with any such product, rinse and soak the device in fresh water for 30 minutes. (3) Scuba dives, technical dives, and diving activities at depths greater than 40 metres. (4) Composite vegan leather, composite woven, titanium, and ceramic straps are not designed for water activities (such as swimming) or to withstand sweat, and therefore it is recommended that other straps be used in such scenarios. Water resistance is not permanent, and performance may deteriorate with daily wear and tear. It is recommended that you regularly take your device to an authorised Huawei service center for inspection and maintenance.
