Description

The LARK A1 is perfect for vloggers, streamers, and content creators who want clear audio without complex settings LARK A1 is a wireless microphone designed for seamless smartphone connectivity with plug-and-play simplicity. It delivers exceptional 48kHz/24-bit high-fidelity audio, capturing every subtle nuance accurately, while its 3-level intelligent noise cancellation ensures pure sound by eliminating ambient noise. The microphone offers customizable audio with adjustable EQ, Reverb, and 6-level gain control. Its intelligent auto-limit feature balances volume levels to maintain stable, distortion-free audio. With the charging case, two TX alternate seamlessly for up to 54 hours of continuous operation. 3-Level Intelligent Noise Cancellation Record All-Day 54-Hour Marathon Battery 120 dB Sound Pressure Level Ultra-Light, Incredibly Discreet 6-Level Gain Adjustment 48kHz / 24-bit 200m (650ft) LOS Range Thickness Only 0.9cm TX Weighs Only 8g
