Description

Designed by Apple to complement iPhone 17 Pro, the Silicone Case with MagSafe is a delightful way to protect your iPhone. And it securely attaches to the Crossbody Strap, allowing you to conveniently wear your iPhone hands-free. Made with a 45 percent recycled silicone material, the case has a silky, soft-touch finish on the exterior that feels great in your hand. And on the inside, there’s a soft microfiber lining for even more protection. This case works seamlessly with Camera Control. It features a sapphire crystal coupled to a conductive layer to communicate finger movements to Camera Control. With built-in magnets that align perfectly with iPhone 17 Pro, this case offers a magical attach experience and faster wireless charging, every time. When it’s time to charge, just leave the case on your iPhone and snap on your MagSafe charger, or set it on your Qi2 25W or Qi-certified charger. Like every Apple-designed case, it undergoes thousands of hours of testing throughout the design and manufacturing process. So not only does it look great, it’s built to protect your iPhone from scratches and drops
