SKU	cm-insta360-X5-b
Brand	Insta360
Category	Camera & Photo
Minimum order quantity	1
Unit	—
Unit price	\$455.00
Available quantity	100

Description

Insta360 X5 8K 360 Action Camera The Insta360 X5 is designed for creators, travelers, action users, and professionals who want cinematic 360° capture with stronger low-light performance, better durability, and flexible editing control. With 8K 360° video, large 1/1.28-inch sensors, Triple AI chip system, PureVideo low-light enhancement, replaceable lenses, Wind Guard audio protection, FlowState Stabilization, 360° Horizon Lock, 72MP photos, and waterproof protection up to 15m, it is a powerful camera for immersive action, travel, vlogging, sports, and creative content

Key Features

- 8K 360° Video Recording**Captures ultra-detailed 360° footage at 7680 × 3840 up to 30fps, giving creators more flexibility for reframing and exporting
- Large 1/1.28-Inch Sensors**Larger sensors help improve image quality, dynamic range, and low-light performance compared to smaller-sensor action cameras
- Triple AI Chip System**Enhances image processing, low-light clarity, noise reduction, and overall camera performance
- PureVideo Low-Light Enhancement**Designed to improve night scenes and low-light footage with better brightness, detail, and reduced noise.
- Replaceable Lens Design**A major advantage for action users, allowing damaged lenses to be replaced instead of replacing the full camera.
- Wind Guard Audio Protection**Helps reduce wind noise for clearer audio during outdoor recording, riding, travel, and action scenes.
- FlowState Stabilization**Keeps footage smooth and stable during movement, sports, walking, riding, and handheld shooting.
- 360° Horizon Lock**Keeps the horizon level even when the camera rotates, making footage look cleaner and more professional.
- 72MP 360° Photos**Captures high-resolution 360° still images with strong detail for travel, scenery, real estate, and creative shots.
- Waterproof up to 15m**Suitable for water activities, beach trips, swimming, rain, and outdoor adventure when used correctly.
- Single Lens Video Mode**Can be used like a traditional action camera with up to 4K recording from one lens.
- Advanced Creative Modes**Supports PureVideo, InstaFrame, TimeShift, Bullet Time, Timelapse, Loop Recording, Me Mode, FreeFrame Video, and Active HDR.

Technical Specifications
