Description AI in Action Unlock a smarter tablet experience with AI-driven functionalities: Video Upscaling for enhanced visuals, Gesture Control for touchless interaction, Text Extraction for efficient text recognition, and Posture Awareness to promote healthier usage

Android with TeclastOS TeclastOS enhances the user experience with advanced features like PC Mode, multi-window support, and Single-App Screen Recording, making it perfect for productivity, entertainment, and everyday tasks.

Allwinner A733 Octa-Core Equipped with the Allwinner A733 Octa-Core processor, the T60AI delivers smooth multitasking, fast response times, and energy-efficient performance for a seamless user experience.

12-Inch 90Hz Display Immerse yourself in vibrant visuals with the 12-inch display featuring a 90Hz adaptive refresh rate, providing smoother transitions and reduced motion blur for media, gaming, and browsing.

Distinctive Camera Design Capture clear images and video calls with the 13MP rear camera featuring a unique ring symmetry design, complemented by a 5MP front camera for clarity.

Memory and Storage With up to 16GB RAM (6GB LPDDR5 + 10GB virtual) and 128GB UFS 3.1 storage, the T60AI ensures fast access to data and ample space for apps and media, supporting efficient multitasking.
