Description

Features 1.77" Wide-angle Always-On Retina display Up to 2000 nits, Up to 40% brighter High and low heart rate notifications Up to 36 hours in Low Power Mode On-device Siri with health data access Precision Finding for iPhone Double tap gesture Thinstant classic The thinnest Apple Watch ever, with our biggest display Series 10 is a major milestone for Apple Watch. It features our biggest and most advanced display yet, showing more information onscreen than ever. With Apple's first wide-angle OLED Display, the screen is brighter when viewed from an angle, making it easier to read with a quick glance Titanium. Polished to perfection In another exciting first, you can choose from three polished titanium finishes that are as beautiful as they are tough. They're made of aerospace-grade titanium that's polished to a mirror-like shine. With titanium's remarkable strength-to-weight ratio, Series 10 weighs almost 20% less than Series 9 in stainless steel while still being extremely durable. Intelligent ways to stay connected Stay connected to the people and things that you care about most. Cellular lets you keep in touch, even when you don't have your iPhone nearby. And intelligent features help you stay informed and on top of everything
