Description

Hoco GM109 Active Universal Capacitive Pen The Hoco GM109 Active Universal Capacitive Pen is designed for users who need a rechargeable stylus for tablets and phones across Android, iOS, Windows, and other compatible capacitive touchscreen devices. With active capacitive use, magnetic function, USB-C charging, aluminum alloy body, 1-hour charging time, and up to 12 hours of use, it is a practical pen for writing, note-taking, drawing, studying, office work, and daily touchscreen control. Key Features Active Universal Capacitive PenDesigned for more controlled touchscreen writing, tapping, drawing, and navigation. Wide Device SupportSupports Android, iOS, Windows tablets and phones, and other compatible capacitive touchscreen devices. Magnetic FunctionAllows magnetic attachment on compatible devices or surfaces that support it. USB-C Charging PortModern charging connection for easier daily use. Up to 12 Hours Usage TimeSuitable for study, meetings, notes, drawing, and long daily sessions. 1-Hour Charging TimeRecharges quickly for convenient everyday use. Aluminum Alloy BodyGives the pen a stronger, cleaner, and more premium feel. Main Feature Sections Universal Stylus for Tablets and PhonesThe Hoco GM109 is made for users who want one active capacitive pen for different devices instead of buying a model-specific stylus. It supports Android, iOS, Windows tablets and phones, and other compatible capacitive screens. Rechargeable and PracticalWith USB-C charging, 1-hour charging time, and up to 12 hours of use, the GM109 is practical for students, office users, designers, and anyone who writes or taps frequently on a touchscreen. Comfortable Daily BuildThe aluminum alloy body gives the pen better durability and a more solid hand feel, while the magnetic function adds convenience when used with compatible devices.
