

Product specification sheet

Product	DJI Osmo Mobile 7P Gimbal
SKU	cm-OM5071
Brand	DJI
Category	Camera & Photo
Minimum order quantity	1
Unit	—
Unit price	\$130.00
Available quantity	100

Description

DJI Osmo Mobile 7P The DJI Osmo Mobile 7P is designed for creators, vloggers, and mobile users who want smoother smartphone videos with intelligent tracking, built-in creative tools, and a more complete filming setup. With 3-axis gimbal stabilization, a built-in extension rod, tripod, and Multifunctional Module, it helps users capture stable, professional-looking content directly from their phone. Its main value is the all-in-one creator experience. The Multifunctional Module adds intelligent tracking, DJI Mic 2 / DJI Mic Mini reception, and lighting support, making the Osmo Mobile 7P a strong choice for vlogs, reels, TikToks, interviews, livestreams, travel videos, and daily content creation. Key Features 3-axis smartphone gimbal stabilization Multifunctional Module included Intelligent subject tracking DJI Mic 2 / DJI Mic Mini reception support Built-in lighting features Built-in extension rod Built-in tripod Magnetic phone clamp DJI Mimo app support ShotGuides and One-Tap Edit Automatic power-on when unfolded Quick magnetic phone mounting Up to 10 hours operating time Can provide extra power to the phone when used with the module Suitable for vlogging, reels, livestreaming, and mobile filming Main Feature Sections Stable 3-Axis Gimbal Filming The DJI Osmo Mobile 7P uses robust 3-axis stabilization to reduce shake and keep smartphone footage smooth. It is ideal for walking shots, travel videos, product content, and handheld filming. Multifunctional Module The included Multifunctional Module combines intelligent tracking, microphone reception, and lighting features in one compact unit, helping creators record better-looking and better-sounding content. Smarter Subject Tracking Dual-lens enhanced tracking helps keep subjects in frame more reliably, even during movement or close-up action. This makes filming people, products, and dynamic content easier. DJI Mic Support The module supports DJI Mic 2 and DJI Mic Mini reception, giving creators a cleaner audio workflow when using compatible DJI wireless microphones. Built-In Extension Rod and Tripod The integrated extension rod helps capture wider selfies and creative angles, while the built-in tripod supports steady vlogs, livestreams, tutorials, and hands-free shots. DJI Mimo App Creativity With DJI Mimo, users can access ShotGuides and One-Tap Edit to film and edit faster, making the gimbal easier for beginners and more efficient for creators. Quick Magnetic Setup The magnetic phone clamp makes mounting fast and simple. Unfolding the gimbal powers it on, helping users start filming quickly.
