Description

Kewig M8SP Motorcycle Phone Holder for Vespa The Kewig M8SP Motorcycle Phone Holder is designed for riders who want a stable and practical phone mounting solution for Vespa and motorcycle use. With support for 5.4–7.2 inch phones, a quick-release buckle, mirror extension support, durable mixed-material construction, and compatibility with 22–32mm bar diameters, it is built for navigation, ride tracking, calls, and daily commuting. Key Features Perfect Fit for VespaDesigned as a motorcycle phone holder suitable for Vespa-style mounting setups. 5.4–7.2 Inch Phone CompatibilitySupports a wide range of smartphone sizes, making it suitable for many iPhone, Samsung, Xiaomi, Huawei, and Android models. Quick Release BuckleAllows easier phone installation and removal, useful for daily riders who need fast access to their phone. Mirror Extension IncludedComes with mirror extension support for easier mounting on compatible Vespa and motorcycle mirrors. 22–32mm Bar Diameter FitCompatible with mounting bars from 22mm to 32mm, depending on the motorcycle setup. Strong Multi-Material BuildMade from PA66 + GF, aluminum alloy, stainless steel, and silicone for durability, grip, and daily riding stability. Silicone ProtectionHelps reduce direct contact between the holder and phone, supporting better grip and protection during rides. Certified ProductCE and ROHS certification listed.
