Description

Features Full HD live view & two-way audio 2 – 4 days of integrated storage for recordings, with no need for subscription People detection for reliable app notifications With integrated battery & WLAN for flexible wireless installation Customizable zone detections and 6m color night vision (recommended installation height 2.5m Max) Works with Yale Home app Yale Smart Outdoor Camera Around the clock HD live feed for additional peace of mind Keep an eye on your property and stay informed about any activity, day or night, rain or shine. The Yale Smart Outdoor Camera is self-monitoring, offering a crisp 1080p HD camera and night vision for a crystal clear live feed 24/7. This allows you to check in on your home and capture pictures or record videos locally or in the cloud whenever motion is detected, thanks to its built-in motion sensor. For added peace of mind, the Smart Outdoor Camera is designed with a spotlight that activates upon motion detection, deterring unwanted visitors and enhancing video quality A customizable security system to suit your lifestyle Easy to operate, with hassle-free installation, the Yale Smart Outdoor Camera offers you the ability to design a smart surveillance system perfectly tailored to your needs. The Smart Outdoor Camera comes with the ability to set up customisable detection zones & scheduling, so you can define specific areas you want your security camera to cover. Using motion scheduling, you can exclude notification triggers and image recording from regular occurrences, like your car pulling into your driveway for additional convenience. Built-in AI technology also allows you to enable human detection for no additional cost, to reduce the level of false alarm notifications Easy installation The Yale Smart Outdoor Camera comes with wall screws and wall plugs for easy installation. Download the Yale Home app and follow the simple steps to set up
