Description

Insta360 Invisible Selfie Stick 114cm The Insta360 Invisible Selfie Stick 114cm is a lightweight extension stick designed for everyday 360° shooting. When used with compatible Insta360 360 cameras, it is automatically removed from the final footage to create third-person perspectives and floating-camera angles without showing the stick. Key Features Invisible in 360° FootageAutomatically removed from compatible 360° footage for clean third-person shots. Extends up to 114cmProvides extra reach for wider angles, group shots, and creative perspectives. Lightweight DesignEasy to carry for travel, daily filming, and casual content creation. Made for Everyday ShootingBest suited to walking, travel, vlogging, and normal-speed use. Wide Insta360 CompatibilityWorks with a broad range of Insta360 cameras, with some models requiring an additional adapter or quick-release mount. Main Feature Sections Create Floating Third-Person ViewsWith compatible 360 cameras, the stick disappears from the stitched footage, helping create drone-like and follow-camera perspectives. Designed for Daily UseThis model is intended for lightweight everyday filming rather than demanding high-speed action. For intense sports or fast movement, Insta360 recommends the Action Invisible Selfie Stick. Flexible Camera CompatibilityThe 114cm stick supports many Insta360 cameras, though some non-360 and GO-series models require separately sold mounting accessories. Technical Specifications Product Type: Invisible Selfie Stick Brand: Insta360 Maximum Length: 114cm Design: Extendable Use Case: 360° video, travel, vlogging, daily shooting, third-person perspectives High-Speed Action Use: Not recommended Automatic Stick Removal: Supported in compatible 360° footage Recommended Accessory: Selfie Stick Sleeve for improved handling Compatibility Compatible with: Insta360 X6 Insta360 X4 Air Insta360 GO Ultra Insta360 X5 Insta360 Ace Pro 2 Insta360 X4 Insta360 GO 3S Insta360 Ace Pro Insta360 Ace Insta360 GO 3 Insta360 X3 Insta360 ONE RS 1-Inch 360 Edition Insta360 ONE RS Twin / 4K Insta360 GO 2 Insta360 ONE X2 Insta360 ONE R Insta360 ONE X Adapter Requirements Some cameras require additional mounting accessories: Ace Pro 2 / Ace Pro / Ace: Requires Quick Release Mount or 3-Prong to 1/4" Adapter GO Ultra: Requires GO Ultra Quick Release Mount GO 3S: Requires GO 3S Quick Release Mount These accessories are sold separately. Important Stability Notes For the ONE RS 1-Inch 360 Edition, Insta360 recommends extending the stick to only about 2 sections / approximately 70cm for better stability. Avoid using long selfie sticks at high speeds or during aggressive action filming, as this model is not designed for high-intensity use. Best Use Cases 360° travel videos Walking shots Third-person perspectives Vlogging Group photos and videos Everyday filming Creative invisible-stick shots Low-speed outdoor use What's in the Box Insta360 Invisible Selfie Stick 114cm × 1
