Description

Insta360 Ace Pro Features Flagship 1/1.3" Sensor and 5nm AI Chip: Armed with a larger, premium sensor, Ace Pro captures more light, with sweeping improvements to image quality. Ace Pro is also the first action camera to incorporate a powerful 5nm AI chip, maximizing the sensor's capabilities and amplifying low light image brightness with reduced noise. All thanks to the power of AI Leica SUMMARIT Lens: Leica brings its legendary expertise in optical design and state-of-the-art imaging to Ace Pro, delivering spectacular visuals to any given moment Unbeatable Image Quality by Day and Night: Record 4K120fps slow-mo and utilize Active HDR for more vibrant shots. The new PureVideo mode redefines low light shooting in an action camera, bringing innovative AI noise reduction and improved dynamic range. 2.4" Flip Touchscreen: Have more control with the huge flip touchscreen. This super flexible setup makes it easy to preview your shots from any angle. Easy Shooting and Sharing: Effortlessly mount Ace Pro and seamlessly switch between accessories with the magnetic mounting system. Ace Pro also supports easy-to-use features such as Pause Recording, Gesture Control, Clarity Zoom and more. The built-in AI automatically generates highlights for you, pushing a ready-to-share video to you via the Insta360 app. Engineered for Adventure: Keep even the most intense bumps and shakes at bay with leading FlowState Stabilization. Ace Pro is waterproof to 33ft (10m) and comfortable in temperatures as low as -20°C (-4°F) for reliable winter sports shooting. In-the-box: 1 x Insta360 Ace Pro, 1 x Standard Mount, 1 x Flexible Adhesive Mount, 1 x Battery, 1 x USB-C to USB-C Cable
